Strategic Leadership & Enterprise Data Architecture (2024–2026)

Mariano Espagnol | *Senior Technical Architect, Analytics & Data Science*

"Mudit distinguishes himself not only through his technical proficiency but through a deep-seated curiosity and critical thinking... master of data architecture and mapping... unique ability to structure complex data environments for long-term scalability... bridge the gap between technical data structures and actionable business intelligence."

Madhav Srikanti | *Vice President of Sales | GTM Strategy | Salesforce Professional Services Leader*

"He led a critical redesign of the ETL architecture, unifying data across multiple Salesforce orgs and implementing a layered staging framework... What sets him apart is his ability to think beyond tools and design scalable, governed data foundations aligned to long-term strategy, combining deep technical expertise with strong business awareness."

Abhishek Vasavada | *AI Deployment Strategist, Forward Deployed Engineering at Salesforce*

"Mudit has consistently demonstrated exceptional expertise... particularly for customers in highly regulated industries... deep understanding of compliance and data governance... navigates complex data architectures with ease... trusted advisor, skilled implementer, and a true professional who delivers excellence."

Alex Yalamas | *Sr. Director – Portfolio Services Leader*

"Strong analytical skills and ability to translate complex business needs into effective, scalable Salesforce solutions... analytics and dashboards became critical tools for leadership... transforming how sales teams tracked pipeline and made data-driven decisions."

Andrew Skelnik | *Senior BI Developer II at Samsara*

"Design, build, and optimize analytics solutions resulting in clear actionable insights... deep understanding of data architecture, performance optimization, AI/agentic design and visualization... communicates complex concepts clearly and drives adoption and business value."

Management & Execution Excellence

Jennifer Burgin | *Senior Director, IT Application Development, Salesforce COE*

"Everyone loved working with Mudit... brilliance with data and technology... gets to the essence of the business issue... transitioned the business from 'running reports' to trying out 'what if's'... insight gained was invaluable as the organization grew."

Brooke Mohnkern | *Salesforce CoE Advisor*

"Passion and commitment to problem solving... blended deep subject matter expertise with flexibility and open mindedness... recognized that successful solutions blend technical and human requirements... empowered stakeholders through delivery."

Ahesanali Mashi | *Director, IB Operations & Market Regulation @ UBS*

"Very creative and thoughtful... does not give up until he achieves what he envisioned... delivery beyond expectations... fearless to speak up... asset to any organization."

Jay Vadodaria | *ITSM Manager / ITIL Certified*

"Highly reliable... sharp intelligence... strong business understanding... always gets it from client's perspective... balances technical excellence with business insight."

Core Foundations & Early Career Leadership

Vibhor Garg | *SVP, Group Delivery Manager at Citi*

"Very high regards for his performance... understands the bigger picture... very client focused and strong communicator... customers always had praises for his work."

Manik Bansal | *Sr Manager Data Analytics at Optum Global Solutions*

"Key role implementing BI tools... strong knowledge across reporting platforms... built user communities across regions... very customer oriented and striving beyond expectations."

Shabana Benazir | *Digital Transformation and Change Lead*

"Exceptional technical/programming skills combined with strong leadership qualities... quick learner... proactive... focused on delivering quality service and going extra mile."

Ashish Kothari | *Vice President*

"Persona to make things change... great vision... fantastic people management skills... true leader."
