Executive Overview

Enterprise Data & Analytics Architect with nearly 20 years of experience designing, modernizing, and governing scalable enterprise data and analytics platforms across financial services, retail banking, and executive education sectors.

In my current role at Salesforce Professional Services, I partner with enterprise customers as a trusted data and analytics architecture advisor, designing scalable platforms that embed predictive and actionable insights directly within Salesforce. I architect **AI-ready** data and analytics foundations across **Data Cloud**, **Agentforce**, **CRM Analytics**, and emerging **Tableau Next** analytics, unifying enterprise data, strengthening governance, and enabling predictive and agentic AI use cases.

Selected Impact & Achievements

- Architected unified Single Pane of Glass (SPoG) analytics across multi-org Salesforce environments
 - Enabled ~\$2.5M in cross-sell revenue through executive-ready Client 360 dashboards.
 - Secured multiple \$1M+ services engagement extensions through strategic data architecture leadership.
 - Reduced data latency by 40% and eliminated 20+ hours/week of manual reporting via ETL redesign.
 - Engineered scalable Data Recipe pipelines processing 250M+ records across 47M+ customers.
 - Empowered 5,000+ business users with embedded Book of Business insights inside Salesforce.
 - Delivered predictive models (Wait Time, CLV, Retention, Churn) embedded directly into CRM workflows.
 - Established CRM Analytics governance standards for datasets, dataflows, security, and deployment.
 - Led globally distributed delivery teams across onshore and offshore models.
-

Core Capabilities

Enterprise Data Architecture

- Multi-org Salesforce integration
- ETL/ELT design & layered data staging
- Semantic modeling & metadata governance
- Security predicates & deployment frameworks

Salesforce Analytics & AI

- CRM Analytics (CRMA) architecture & governance
- Einstein Discovery predictive modeling
- Data Cloud & LLM grounding strategies
- Agentforce, Tableau Next & conversational analytics

Enterprise Delivery & Leadership

- Cross-shore team leadership (BA, Dev, QA, UAT)
 - Pre-sales architecture & executive demos
 - Agile / CI-CD enterprise implementations
-

Certifications

- Salesforce Agentblazer Legend (2026)
 - Agentforce Specialist | AI Associate | Data Cloud Consultant
 - CRM Analytics & Einstein Discovery Consultant
 - Salesforce Administrator | Platform App Builder
-
