EXECUTIVE SUMMARY

- Enterprise Data & Analytics Architect with nearly 20 years of experience designing, modernizing, and governing scalable enterprise data and analytics platforms across financial services, retail banking, and executive education sectors.
 - Deep expertise in Salesforce CRM Analytics (**CRMA**), embedded analytics architecture, governance frameworks, and enterprise-scale deployments.
 - Hands-on experience with **Einstein Discovery**, delivering predictive analytics and AI-assisted decision-making on governed enterprise datasets.
 - Experienced in enterprise data architecture, multi-org Salesforce integration, ETL/ELT pipelines, and semantic modeling.
 - Hands-on exposure to **Agentforce**, Salesforce **Data 360**, and emerging **Tableau Next**—powered analytics, supporting conversational analytics and modern enterprise AI architectures.
 - Trusted advisor to C-suite stakeholders, translating business strategy into scalable analytics roadmaps and enterprise AI transformation initiatives.
 - Led globally distributed delivery teams, guiding Business Analysts, Developers, QA, and UAT teams through complex analytics implementations while mentoring consultants and supporting recruiting and onboarding initiatives.
-

CORE COMPETENCIES

- Enterprise Data Architecture
Multi-Org Integration, ETL/ELT Pipelines, Data Staging & Orchestration, Semantic Data Modeling, Metadata Governance, Security Predicates
- Salesforce Analytics & AI
CRM Analytics (CRMA), Einstein Discovery, Data Cloud, Agentforce, Analytics Agent, Tableau Next, Conversational Analytics
- Analytics Engineering
Dataflows, Data Recipes, Salesforce Flows, SQL, SAQL, SOQL, JSON, Embedded Analytics
- Enterprise BI Platforms
Tableau, Oracle BI, OBIEE 11g/12c, BI Publisher, Oracle EPM, Hyperion IR
- Leadership & Delivery
Client Advisory, Solution Architecture, Technology Roadmaps, Agile Delivery, Team Mentorship

PROFESSIONAL EXPERIENCE

Salesforce Inc., USA | Professional Services | Analytics Architect | Dec 2021 – Present

Major Engagements: GEICO, AWS, NASDAQ, Wells Fargo, Alliant, Aflac

As part of Salesforce Professional Services, I partner with enterprise customers as a trusted data and analytics advisor. My role spans discovery, pre-sales architecture, enterprise data platform modernization, CRM Analytics governance, and AI-ready data foundation. I focus on building scalable analytics ecosystems that embed predictive insights directly within Salesforce while preparing organizations for **Agentic AI adoption**.

- Partnering with GTM to support a **multi-million-dollar pipeline** through analytics demos; Earned recognition from a top-tier FinTech client, with **multiple \$1M+ services** engagement extensions.
- Led post-**M&A** enterprise data **integration & harmonization** across four business units in a **multi-Salesforce-org** environment, architecting a unified Single Pane of Glass (**SPoG**) customer analytics solution delivered in weeks instead of waiting months for full org integration.
- Redesigned **ETL pipelines** and governance frameworks, reducing **data latency by 40%** and eliminating **20+ hours per week** of manual reporting effort.
- Enabled **cross-sell initiatives** through **Client 360 dashboards**, generating **~\$2.5M** in new business within weeks, becoming the primary dashboard used in monthly sales leadership calls.
- Led enterprise retail banking analytics modernization with scalable ETL processing **250M+ records**, empowering **5,000+ bankers** with Book of Business insights across **47M+ customers** & client hierarchies to drive effective customer outreach and **data-driven sales conversations**.
- Developed predictive and advanced analytics including Customer Wait Time models, Customer Lifetime Value (**CLV**), retention, and churn analysis, First Call Resolution (**FCR**), Average Handle Time (**AHT**) and Net Promoter Score (**NPS**) within Service Cloud, enabling leadership to measure the impact.
- Configured Agentforce **Analytics Agent** leveraging the **Tableau Next** semantic metrics layer as part of an enterprise pilot initiative.
- Defined Analytics architecture and governance standards while **leading cross-functional teams** across onshore and offshore delivery models in agile CI/CD environments.
- Collaborated with Salesforce **product and engineering teams** to escalate enterprise client issues, reproduce defects and influence product enhancements based on customer feedback.

Harvard Business School, USA | ExEd | BI Consultant (via Delasoft) | Feb 2015 – Dec 2021

Joined during Salesforce implementation and led BI platform readiness for enterprise go-live. Progressed into restructuring and modernizing the analytics ecosystem, migrating legacy reporting assets and aligning enterprise data architecture with Salesforce's evolving data model.

- Representing the needs of **Analytics and Reporting** during the development of new salesforce features, customization & automation to ensure interoperability with BI solutions.
 - Prepared BI and reporting platforms supporting **500+** enterprise users during **Salesforce go-live**.
 - Re-architected BI ecosystem and migrated legacy assets to CRM Analytics and **OBIEE 12c**.
 - Developed CRM Analytics dashboards using **SAQL, SOQL, JSON**, and **Data Recipes**.
 - Maintained OBIEE RPD repository and BI Publisher reporting frameworks.
-

Capgemini Financial Services, India | CLSA Asia-Pacific | Team Lead | Nov 2009 – Jan 2014

Led BI Reporting desk supporting global equity trading, settlement, and clearing operations. Managed mission-critical reporting infrastructure serving institutional clients while driving modernization, automation, and cost optimization initiatives.

- Led a team of **9 analysts** managing Middle and Back Office reporting environments supporting **300+ users** and **3,000+** reports across **30+** Oracle and Teradata databases.
 - Developed Trade/Non-Trade, Finance, Regulatory, and Reconciliation reporting solutions, including Contract Notes and Trade Confirmations for Middle and Back Office operations, supporting end-to-end trade execution milestone reporting.
 - Supported Run-the-Bank operations; developed self-triggering reports for trade execution, settlement, trade lifecycle monitoring.
 - Promoted engagement to Managed Services reducing project cost by **~30%**.
 - Upgraded Hyperion 9.3 to Oracle **EPM** 11.1.2 and migrated reporting assets.
 - Enhanced reporting performance through index tuning, pre-aggregation, and optimization.
-

KPIT Technologies Ltd., India | Application Developer | Jul 2006 – Nov 2009

I began IT career as Associate Trainee and progressed into Application Developer role working with Hewlett-Packard (USA) and Unilever (UK). Built strong foundation in advanced Oracle **PL/SQL** development and production support which laid groundwork for future data architecture expertise.

- Developed enterprise applications using packages, procedures, triggers, **dynamic SQL**.
 - Developed benefit compliance application using Oracle Web Application & PL/SQL Cartridge.
 - Provided production support for **Hyperion Analytics** and Reporting environments.
 - Performed server monitoring, backups, and incident resolution coordination.
-

CERTIFICATIONS

- Salesforce Agentblazer Legend (2026) | Certified Agentforce Specialist | AI Associate
- Salesforce Certified Data Cloud Consultant | CRM Analytics and Einstein Discovery Consultant
- Salesforce Certified Administrator | Platform App Builder
- Teradata Certified Professional | Oracle Certified Associate - Oracle 9i PL/SQL Developer
- ITIL V3 Foundation & Intermediate Certification (Service Operations)
- NCFM Certifications in Financial Market, Securities Market,
- Capital Market, Derivatives & Options Trading Strategies

EDUCATION

- **Bachelor of Engineering** | 2002 - 2006, (4 Year Degree Course)
Rajiv Gandhi Technical University (RGPV) Bhopal, India.
-
